

Dulles Orchestra List of Recommended Private Teachers

All of these teachers have one or more music degrees from accredited universities or colleges of music and have an excellent track record in working with students in the Garcia Orchestra Program. Teaching fees are set by the teacher and will vary depending on the experience and education of the teacher. Strong private teaching is the backbone of any successful public school orchestra program. Certain techniques can only be taught with one on one instruction. You are encouraged to provide private instruction for your student to maximize their success while in the public school orchestra. Most of these teachers offer weekend and evening instruction. Most lessons occur once a week lasting between 30 to 60 minutes a week depending on a student's needs and level of advancement.
